

THE SIXTH INTERNATIONAL CONFERENCE
ON THE WORK OF

Frances Tustin

SYDNEY JULY 19-21, 2012

ON BRINGING PATIENTS TO LIFE

The life giving qualities of emotional receptivity in the therapeutic relationship offer the possibility for the child or adult trapped in a hard protective, but isolating, shell to come to life.

On Bringing Patients to Life, the theme of the conference, evokes the harsh Australian landscape with its red centre, the heart from which life erupts; where the searing heat of bushfires bursts open hard seed-pods, and long awaited rains transform the parched desert into a sea of bloom.

Eminent clinicians from Australia and worldwide will present an enriching programme.

Plenary Sessions with Kate Barrows, Peter Blake, JoAnn Culbert-Koehn, Alina Schellekes, Neville Symington, Cathy Urwin and Anne Alvarez (by video-link from London).

Clinical workshops with Chiara Cattelan, Joshua Durban, Jeffrey Eaton, Kathleen Fargione, Shirley and James Gooch, Yvonne Hansen, Mark Howard, Jeanne Magagna, Judith and Ted Mitrani, Ruth Safier, Frances Salo and Eve Steel.

IMPORTANT DATES

Registration Opens - 1 September 2011

Early Bird Registration Closes - 30 March 2012

Registration Closes - 15 July 2012

Conference Begins - 19 July 2012
